

FRONTIERS CAMP CHEER AND SONG

(Cheer)

We build our culture
And become like brothers
Working together and
Learning from each other.
We live and learn the American past,
Our Frontier memories will forever last.

(Song)

As the sun today, begins to set
I think back to this mornings call.
Of all my duties, sought and done
and comrades made with one and all.
And here I stand, a mountain man,
full of memories known to none but us.
So come with me to the fire ring
Donaeho I say with all my friends

So come with me, to the fire ring
and gather ash, of the years gone by.
We'll make the signs at the long days end
Donaeho I say with all my friends.

A rendezvous, has come to pass
bringing homes together, from far off lands.
Sharing skills and passions, of older times
learning song and dance of distant clans.
And now we've found a place we love
Made of family, friends, and those soon to be.
So come with me to the fire ring
Donaeho I say with all my friends.

So come with me, to the fire ring
and gather ash, of years gone by.
We'll make the signs at the long days end
Donaeho I say with all my friends.
